

Sylvania Super HPS 400/600W GroLux®

Distributed by

Sylvania SHP 400/600W GroLux®

Thanks to the latest technology, Sylvania has reached a breakthrough in horticultural lighting.

With GroLux® lamps, it is now possible to increase the total amount of light that plants receive and the

overall quality of light by as much as 10% without costly modifications to the existing lighting installation.

Quality

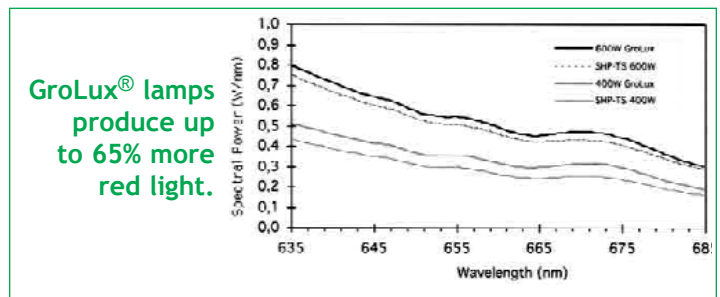

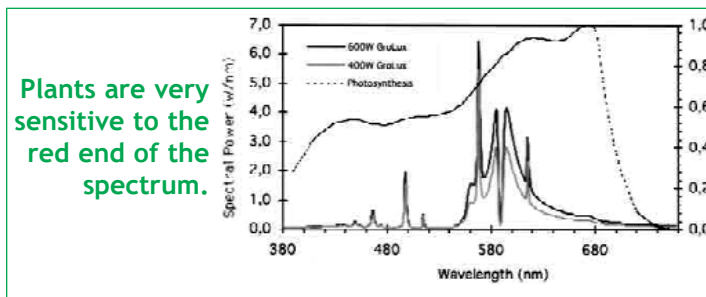

GroLux® spectral output includes more blue light and as much as 65% more red light than existing

special horticultural lamps. Plants will produce more flowers and fruit of greater size, and they will be stronger and thicker, overall.

GroLux® Advantages

- ◆ Taller, stronger plants
- ◆ Increased crop volume
- ◆ Grow out of season crops
- ◆ More, larger and better flowers
- ◆ Easy to install
- ◆ Better light, cheaper light
